Background

- DoD Interest in Supply Chain Data Synchronization
- UPN Initiative
- CHes/HCEC Collaboration
- PDU Facilities Transition to Data Synchronization
- Data Synchronization Facilitates UPN
- Improved Efficiencies, Decreased Costs
- Lessons Learned from Other Industries
(Retail, Electrical, Grocery, Automotive)

Original Goal and Objective

- Determine the Feasibility of a PDU in Healthcare
- Recommend a “Go-Forward” Strategy for Making PDU a Reality
 - What Is It?
 - Who Owns/Runs It?
 - How Should It Work?

Excellent Company Participation

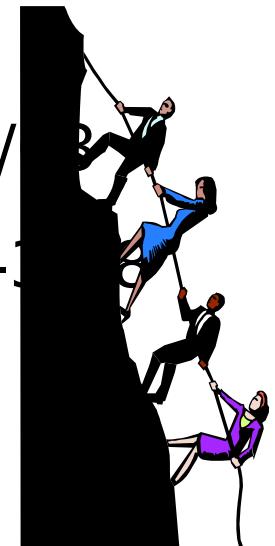

- 3M
- AmeriNet
- BD
- Cardinal Health
- CHes
- CooperGroup, LLC
- DoD
- GHX
- HCEC

- HealthLink
- Johnson & Johnson
- Methodist HealthSystem
- Novation
- Owens & Minor
- Premier
- Profile Systems
- St. Alexius Medical Center
- Tenet HealthSystem

How Did We Get Here?

- Kickoff Meeting in Chicago on 11/13/02
- Creation of 3 Teams with Designated Leaders
- Ongoing Individual Team and Weekly Leadership Conference Calls
- Follow-Up Team Meeting in Houston on 3/4/03
- Final Leadership Meeting in Dallas on 3/27-28/03

Next Actionable Steps

- Gain Commitment/Consensus from Supply Chain Members
- Form PDU Implementation Organizing Team
 - Seeking Resource/Members from Across the Supply Chain to Commit to Tailoring and Implementing the Proposed Milestones
- Develop Marketing Strategy

Proposed Milestones

- Recruit Key Stakeholders for Funding
- Solidify Governance
- Hire Admin and Technical Leader
- Set RFP Requirements
- Evaluate RFP Responses
- Facilitate Contractor Selection
- Build/Pilot/Launch PDU
